

## **MISSION STATEMENT**

PolyClean Innovations is committed to developing and marketing customized cleaning solutions and cleaning products using innovative concepts, leveraging the latest product technologies, fulfillment services, and program management tools.

We strive to deliver cleaning solutions to large retail and foodservice clients through the collaborative efforts of consultative business development, our client service team, and top quality product and fulfillment suppliers. We reach out to end users directly and/or through cleaning contractors. Our core line of cleaning products differentiates itself based on performance characteristics, unique design, constant refinement and innovation, and long-term value.

Our commitment to our clients is to provide industry leading goods and services that consistently exceed their requirements.

Our commitment to our employees is to continually create a positive work environment that fosters an entrepreneurial spirit and provides an opportunity for enrichment and personal and professional growth.
